

# Let's Spark Some Ideas!

Let's take your hobby and something you're passionate about and see if we can begin to discover your Limitless Spark.

## **Here's how this works...**

### ***You enjoy gardening and you love teaching...***

- Maybe you would enjoy teaching a gardening class at your neighborhood nursery

### ***You enjoy cooking and love entertaining....***

- Teach cooking classes to people in their homes while they entertain guests for dinner.
- THINK BIGGER...teach them nutrition with a list of different topics they can choose from.

### ***You enjoy quilting and have a strong desire to help those in need....***

- Start a club with other women who also love quilting and make blankets for a homeless shelter or a battered women's shelter. THINK BIGGER...start an organization that spans the country providing handmade blankets for shelters in every community
- Make blankets for babies born with birth defects, blankets for patients in hospice...so many ways to do this :) .

### ***You enjoy hiking and love being with people***

- Join a hiking club and set a goal to hike different trails in your area or THINK BIGGER... across the country.

- Talk to a company that sells hiking shoes and ask if you can set up weekly/ monthly hiking groups to lead on hiking adventures with their customers or see what companies already do this and apply for the job. Or create one yourself within your own community.
